**Safer homes. Safer schools.
Safer workplaces.
Safer places of worship.
Safer communities.**

**PROTECT
MINNESOTA**
working together to prevent gun violence

Gun violence is a pervasive negative influence in our state and nation, stealing lives, devastating families, oppressing communities, and costing Minnesota over \$2 billion annually. *(Giffords)*

More Minnesotans die from gun violence every year than from opioid abuse or motor vehicle crashes. *(MDH/CDC)*

It's time to treat gun violence like what it is: a public health crisis that puts every Minnesotan at risk. We must enact laws that will **prevent** gun violence, instead of responding after tragedies occur and lives have been lost.

**Our #1 Goal:
Making gun ownership SAFER**

For 27 years, Protect Minnesota has been the ONLY independent, state-based organization dedicated to preventing gun violence in Minnesota. We're not anti-gun. We're anti-gun violence. Our goal is to keep guns out of the hands of criminals and those who are a threat to themselves or others. We CAN make gun ownership safer in Minnesota, without taking away the rights of responsible, law-abiding gun owners. Join us today, and help **PROTECT MINNESOTA!**

Protect Minnesota Supports

Passing sensible gun laws, including

- Closing the private seller loophole so that every gun sale includes a background check or permit to purchase.
- Extreme Risk Protection Orders, also called "Red Flag" laws.
- Mandatory reporting of lost and stolen firearms to prevent gun trafficking.
- Federal ban on semiautomatic military-style assault weapons and high-capacity magazines.

Public health solutions

to prevent gun violence before it occurs by:

- Removing prohibitions in current state law against the collection of gun-related data for research purposes.
- Providing treatment for gun violence-related trauma to end the cycle.
- Making suicide prevention and gun safety resources widely available.
- Investing in the communities most impacted by gun violence.
